## **DETAILED ACTION**

### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because figures 1-2 are not acceptable for examination. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
2. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

3. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 11 and 17, the prior art alone or in combination does not teach the limitation of a capacitor network comprising a first capacitor having a first temperature coefficient and a first nominal capacitance, said first nominal capacitance

value having a first tolerance range, and the first nominal capacitance value independently determined, and a second capacitor having a second temperature coefficient and a second nominal capacitance, said second nominal capacitance value determined by a design ratio between the first nominal capacitance value and the second nominal capacitance value.

Claim 2-20 are depend on claims 1, claims 12-16 are depend on claim 11, and claims 18-20 are depend on claim 17, they are allowed for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **Citation Relevant of Prior Art**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Dovoe et al. (US 6,816,356) disclose integrated broadband ceramic capacitor array.

b. Hayworth et al. (US 6,515,842) disclose multiple array and method of making a multiple array.

c. Wolf et al. (US 6,414,835) disclose capacitance filtered feedthrough array for an implantable medical device.

d. Duva et al. (US 6,058, 004) disclose unitized discrete electronic component arrays.

- e. Nishiyama (US 4,866,566) discloses capacitor network.
- f. Imamura et al. (US 4,855,866) disclose capacitor network.
- g. Tanabe (US 4,665,465) discloses feed-through type multilayer capacitor.
